*3/6/2013: 2nd Panhellenic Meeting of Post graduate Students on Pharmaceutical Sciences

President's welcome address

Dear colleagues,

We are delighted to announce to you the 16th Panhellenic Pharmaceutical Conference of the Panhellenic Pharmacists Association, which will be held in Athens, in the Amphitheatre "Athina 9.84", Hall "Dexamenes", Building "D10" (Technopolis - Gazi) between 31 May-03 June 2013, traditionally held every two years in spite of the adverse times that will certainly not make us yield at this point.

Now more than ever, we will have to stay united regardless of the post we serve our multidimensional science from. So, we address all pharmacists, fully aware that the exchange of knowledge, opinions and solutions is especially essential in dealing with the crisis and invigorating the discipline we serve.

The topics of our Conference concern scientific achievements of Greek and foreign internationally acclaimed scientists, as well as problems of professional nature which we all deal with the socially sensitive places we serve at, I am convinced that we will all help by enriching our scientific knowledge in order to solidify our position in our function. We welcome the mass participation of all of you, as well as colleagues from relative disciplines.

We consider your contribution vital to the success of our Congress and we expect you to participate actively with your presence and with the submission of your papers.

Warm Regards,

Evgenios Kokkalou, Phd.
